

**Bobcat**®

## Compact Tractors

CT2025 | CT2035 | CT2040 | CT2535 | CT2540

***One Tough Animal***®

# LIKE YOU, BOBCAT WAS BORN FOR THIS.

**YOU MIGHT KNOW** Bobcat Company from its iconic compact loaders and excavators: those tough, white-and-orange machines you see on countless construction sites and landscaping projects. But our first machine was literally born in a barn.

Designed for a turkey farmer, the original compact loader was destined to clean small livestock pens and stalls. Ever since, Bobcat® equipment has been a mainstay on ranches, dairies and all kinds of fruit, grain and vegetable operations.

The rural lifestyle is a piece of your identity. It's home. It's you. Bobcat shares your roots, and we're coming back to them in a big way – with a tough lineup of 15 compact tractors. They have everything you need to turn the dreams for your land into reality.

*We love a good homecoming. So try a Bobcat compact tractor on your property. It's all Bobcat. **And it's all you.***

The more you do with your tractor, the more ideas you have for your property. Bobcat compact tractors prepare you for every possibility.

ACCOMPLISH

MORE.

**THESE AGILE MACHINES ARE STRONG**

enough to work inside and around sheds, barns, animal enclosures and anywhere else the work takes you. With models up to 40 hp, your choice of manual or hydrostatic transmission, plus generous lifting ability, ground clearance and a powerful 3-point hitch with power take-off (PTO), Bobcat brings outstanding performance and value to your property.

From its wheelbase to its length, tire options and overall engineering, your Bobcat compact tractor is powerful and capable while being responsive and comfortable to operate. With top travel speeds as high as 14.4 mph (depending on model), you'll spend less time moving from one point to another, and you'll make every second count when you have work to get done. And because a hard-working tractor needs hard-working traction, you can easily engage four-wheel drive whenever the work demands it.

controlled by foot pedals.

### **Tight Turning Radius**

Maximum maneuverability is the key to effective mowing, tilling and more. Bobcat compact tractors feature a tight turning radius – as little as 8 feet – so you can move in close to trees, buildings and other obstacles.

#### **Steering Brakes**

Steering brakes are especially useful when you're working between buildings, in pens or barns, or around trees. They assist in maintaining a tight turning radius, nearly pivoting the tractor on the inside wheel.

### **High Ground Clearance**

A high minimum ground clearance enables you to keep working in uneven terrain or in wet, muddy conditions.

### **Manual or Hydrostatic Transmission**

Pick a model that works for you, with the controls and capabilities that fit your preference, budget and working style.

#### **Manual Shift Transmission**

This economical, reliable manual-shift transmission requires you to stop to change between nine forward gears and three reverse gears. It's the classic tractor transmission that many remember from growing up on the farm. It works well for jobs that require a constant speed, such as mowing, tilling or spraying. Second and reverse gears are synchronized to facilitate loader usage, though it's not recommended if you intend to do a lot of digging and loading.

#### **Hydrostatic Transmission (3-Range HST)**

The hydrostatic transmission uses hydraulic pressure to change speed, operating similar to a vehicle. You'll only need to stop moving if you want to change your range. This is a good transmission choice if you're doing frequent front-end loader work, mowing or clearing brush as you maneuver through wooded areas. Its ease of operation also makes it a good choice for novice drivers. Forward and reverse are

### **Tire Options**

Three types of tires are available for Bobcat compact tractors. They offer a combination of reliability and ride quality to match the requirements of your work.

#### **Turf Tires**

Turf tires are designed with less aggressive tread that minimizes disturbance on lush lawns and established landscaping.

#### **Industrial Tires**

Industrial tire tread is wider than agricultural tires, and the lugs are deeper than turf tires. They deliver great traction for all ground conditions and many different applications.

#### **Agricultural Tires**

These tough tires have deep lugs for optimal traction and self-cleaning in soft soil and mud. They also deliver more power to the ground when towing heavy loads or pulling implements.

### **Leading Drawbar Towing**

Bobcat compact tractors deliver leading drawbar towing power and force for heavy towing performance that beats many other tractor brands.

### **Adjustable Hitch**

The hitch is adjustable to provide towing flexibility and convenience.

# PROTECT YOUR INVESTMENT.

*From rugged metal hoods to the solid and sturdy construction of our 3-point hitches to our unmatched dealer support, your Bobcat tractor can stand up to a challenge.*

## **Tier 4 Diesel Engine**

Powerful Tier 4 engines offer robust, high-power performance, plus an efficient fuel system. You'll enjoy reliable tractor start-ups and long component life, as well as low noise and vibration for comfortable work.

## **Metal Hood**

The metal hood, designed to provide great visibility from the operator station, stands up to tough jobs, reliably protecting the engine and components from dirt and debris.

## **Polymer Fuel Tank**

A heavy-duty polymer fuel tank maintains fuel integrity and eliminates rust-related contamination.

## **Brush Guard**

Included with the optional front-end loader, the heavy-duty brush guard protects your tractor's front end from debris, branches and other obstacles.

Your chores demand daily attention. Your tractor needs to be ready to work when you are. Bobcat compact tractors are built to contend with the dust, dirt and grit of your toughest challenges, and they're designed with ease of maintenance in mind.

## **THE BOBCAT DEALER NETWORK ADVANTAGE**

Bobcat built its brand on quality equipment serviced by reliable local dealers, with warranty repairs and parts availability that are second to none. With the help of our knowledgeable dealers, Bobcat customers have kept machines running for decades doing the toughest jobs imaginable. If you're looking for long-term service and support, take a look at Bobcat compact tractors.

# Minimize your maintenance.

You bring a tractor home to do work. It shouldn't be a job to keep it running. Maintenance points on your tractor are easy to find and reach – so upkeep is simple and takes less time. Flip up the metal hood – it opens nearly 90 degrees – to easily access the battery, filters and other checkpoints. Other components are simple to reach and service, allowing you to easily retain peak performance for years.

## **One-Side Maintenance**

All daily checks, engine fluid fills and filters are located on one side of the engine, which makes it easy to keep your tractor running smoothly with minimal effort.

## **One-Piece Engine Hood with Air Cylinder Assist**

There are no side panels to remove when you need to access your engine. It's as simple as lifting the hood. With the air cylinder assist, it takes little effort. When fully opened, the tractor's hood stands nearly perpendicular to the engine compartment. This provides best-in-class maintenance accessibility and makes virtually all of the major service points easy to reach.

# ENJOY YOUR WORK.

## **Cab-Integrated Joystick Lever**

The joystick lever is within easy reach for simple loader work, but it's also strategically positioned to maintain high visibility. The molded grip feels comfortable in your hand and makes the front-end loader respond intuitively to your command.

## **Power Steering**

Power steering adds near-effortless maneuverability and automotive-style comfort to your tractor's operation.

## **Linked Pedal Lever**

Standard with the CT2535 and CT2540, and available as an option with the HST models of the CT2025, CT2035 and CT2040, the linked pedal increases engine rpm as you engage the travel pedal, enabling operation that feels similar to driving a car. This makes for intuitive front-end loader control and enhances ease of use on a variety of jobs.

## **Low Noise, Low Vibration**

The engine in your Bobcat compact tractor is designed to produce low noise levels with minimal vibration to keep you working comfortably and focused on the task.

## **Headlights**

Bright headlights illuminate the job for high visibility for evening work and other low light conditions.

When you have hours of mowing and acres of upkeep ahead of you, a comfortable tractor is a must. Bobcat compact tractors offer outstanding features that make tough jobs comfortable and enjoyable. Intuitive controls that fit you naturally. A comfortable ride. A quiet engine that helps you focus on the job. When the projects pile up, you won't mind spending extra time on this tractor.

### **Panoramic Visibility**

Inside the optional cab, you'll notice panoramic visibility – made possible with wide glass panels and minimal obstruction from the inside and outside. A window to the 3-point hitch ensures that you can monitor implement attachment and work performance without having to frequently step out of the cab.

The open cab models provide excellent sightlines to the work and great all-around visibility, with the additional simplicity and ease of use for operators who frequently get on or off the tractor throughout the day.

### **Enclosed Radio-Ready Cab with Heat and Air Conditioning**

When the elements won't cooperate, a comfortable cab option provides all-weather comfort while protecting your ability to get the job done in any season.

### **Rear Wiper and Defroster**

When cold or wet weather hits, you'll enjoy an unobstructed view in back, thanks to the rear wiper and defroster, included with the optional cab.

### **Comfortable Operator Station with Ergonomic Controls**

The operator station on Bobcat compact tractors is designed to enable hours of comfortable, confident work. All of your controls, gauges and buttons on Bobcat compact tractors are thoughtfully laid out with your ease of use in mind. The illuminated dashboard allows you to operate and easily monitor performance in all light conditions.

### ***FOLDABLE ROLLOVER PROTECTIVE STRUCTURE (ROPS)***

On select models, the ROPS is designed to protect the operator in the event of a rollover (when the ROPS is locked in the up position and the seatbelt is fastened). The foldable ROPS can be temporarily lowered when driving under trees, into garages or in other low-clearance areas.

# DO MORE

Throughout the day, you can go from mowing to grading to digging. Your property presents endless opportunities to get outside and get something done. From front to back, Bobcat tractors are well equipped to keep up with your to-do list.

*with one machine.*

## FRONT-END LOADER WITH **STANDARD QUICK ATTACH MOUNTING SYSTEM**

The front-end loader is a must-have for digging, dirt moving, loading and carrying material. On your Bobcat tractor, the front-end loader is easy to attach and remove, plus it delivers leading lift capacity and height for exceptional productivity. Front-end loaders are equipped with float functionality to follow ground contours as you work.

Take on digging, loading and material handling with a strong, easy-to-use front-end loader. Handle mowing with the help of the optional mid-mount PTO. Finally, use an array of implements with your 3-point hitch and rear PTO. Your dealer can help you acquire a range of Bobcat implements for the work you do on your land.

### **Mid-PTO Option**

Enjoy superior maneuverability for mowing around trees, buildings and other obstacles with a 2,000-rpm mid-PTO and mid-mount mower.

With a mid-PTO, you have the option of combining two tools on one machine – one in the back and either one in the front or a mid-mount mower.

### **External 3-Point Control Lever**

You can easily raise and lower the 3-point hitch lift arms using the height control lever, located

behind the machine.

### **Turnbuckle Lift Rod Adjustment**

Get perfect positioning for implement hookup with the turnbuckle-style lift rod adjustment. It turns easily, raising and lowering the links to make changes simple.

### **Angled Lower Lift Arms**

The lower lift arms provide a forgiving angled design that makes implement hookup quick and easy.

### **Flip-Up PTO Guard**

The flip-up PTO guard ensures easy attachment installation while providing operator protection during use.

# IMPLEMENTS AND ATTACHMENTS

**YOUR COMPACT TRACTOR** packs a lot of versatility for the price, and hard-working Bobcat implements and attachments are made to handle the numerous possibilities you uncover on your land.

## Front-End Loader

The front-end loader is a must-have for digging, dirt moving, loading and carrying material. The Bobcat front-end loader is easy to attach and remove, plus it delivers leading lift capacity and height for exceptional productivity. The FL7 is only compatible with a CT2025. The FL8 is compatible with the CT2035, CT2040, CT2535, CT2540.

Model	FL7	FL8
<b>Max. Lift Height to Pivot Pin</b>	95 in. (2413 mm)	100 in. (2540 mm)
<b>Max. Lift Height under Level Bucket</b>	87 in. (2210 mm)	91 in. (2311 mm)
<b>Clearance with Bucket Dumped</b>	73 in. (1854 mm)	74 in. (1880 mm)
<b>Reach at Maximum Lift Height</b>	11 in. (279 mm)	10 in. (254 mm)
<b>Maximum Dump Angle</b>	48 in. (1219 mm)	52 in. (1321 mm)
<b>Reach with Bucket on Ground</b>	59 in. (1499 mm)	62 in. (1575 mm)
<b>Maximum Rollback Angle</b>	36 in. (914 mm)	32 in. (813 mm)
<b>Digging Depth</b>	5 in. (127 mm)	5.5 in. (140 mm)
<b>Lift Capacity at Pivot Pin (max. height)</b>	1369 lb. (621 kg)	1389 lb. (630 kg)
<b>Breakout Force at 500 mm</b>	2487 lb. (1128 kg)	2838 lb. (1287 kg)
<b>Weight</b>	915 lb. (415 kg)	1070 lb. (485 kg)
<b>Bucket Width</b>	60 in. (1524 mm)	60 in. (1524 mm)

## Backhoe

Turn your Bobcat compact tractor into a powerful part-time excavator with this handy attachment. The backhoe is great for general purpose digging and trenching. Sub frame included.

Model	BH76
<b>Digging Depth (2' flat bottom)</b>	90 in. (2286 mm)
<b>Reach from Center Line of Swing Pivot</b>	122 in. (3099 mm)
<b>Loading Height (bucket at 60°)</b>	74 in. (1880 mm)
<b>Maximum Leveling Angle</b>	8°
<b>Swing Arc</b>	180°
<b>Transport Height (maximum)</b>	83.5 in. (2121 mm)
<b>Bucket Rotation</b>	180°
<b>Stabilizer Spread (down position)</b>	75 in. (1905 mm)
<b>Stabilizer Spread (up position)</b>	65 in. (1651 mm)
<b>Bucket Digging Force</b>	3075 lbf.
<b>Operating Pressure</b>	2466 psi (170 bar)
<b>Shipping Weight (without bucket)</b>	880 lb. (399 kg)

## Mid-Mount Mower

Perfect for a variety of applications, the mid-mount mower cuts grass in areas where maneuverability is tight. It includes a standard side discharge and solid rubber wheels. Features a blade travel speed of 78.2 meters per second smoothly, without skips. The M60-5 is only compatible with the CT2025.

Model	M60-5
<b>Cutting Width</b>	60 in. (1524 mm)
<b>Cutting Height</b>	1-4 in. (25-102 mm)
<b>Transport Height</b>	6 in. (153 mm)
<b>Gear Type</b>	Spiral Bevel
<b>Number of Blades</b>	3
<b>Blade Spindle Speed</b>	2888 rpm
<b>Blade Tip Velocity</b>	78.2 m/s
<b>Blade Length</b>	20.4 in. (518 mm)
<b>Deck Thickness</b>	0.15 in. (3.8 mm)
<b>Total Width</b>	74.1 in. (1992 mm)
<b>Total Length</b>	39.2 in. (996 mm)
<b>Total Height</b>	12.8 in. (325 mm)
<b>Weight (60" deck w/ mounting)</b>	380 lb. (172 kg)
<b>Drive Type</b>	U-Joint and V-Belt
<b>Lifting Type</b>	3-Point Hitch Links
<b>Compatible with Loader</b>	Yes
<b>Drive Over Deck</b>	Yes

Bobcat provides you access to a world of Bobcat implements and front-end loader attachments – so you can get the most work from your tractor investment. Whether it’s moving snow, installing a fence or taking care of animals, when you have the right tractor and the right implement or attachment, there is virtually no task that’s beyond your ability.

There are more than 550 dealer locations in North America, so you’re never far from an expert source of implements, attachments, accessories, parts and service.

## DEALER INSTALLED KITS AND OPTIONS

You can customize and accessorize your Bobcat compact tractor to improve productivity, enhance durability, maximize operator comfort and more. Simply choose options and accessories\* that match your unique demands.

### PIONEERING MANEUVERABILITY

Bobcat introduced its first compact loader in 1958, and two years later, the world's first skid-steer loader. This created an entire industry of machines that put the power of large equipment in a compact size with unmatched maneuverability.

### OFFERING MORE VERSATILITY

In 1970, Bobcat invented the first quick-change attachment system for skid-steer loaders, known as the Bob-Tach mounting system. Today we offer more compact equipment attachments than anyone in the world, empowering customers to transform all of our machines into multi-tasking attachment carriers and reach higher levels of production.

### ONE TOUGH ANIMAL®

All over the world, Bobcat equipment is known for being durable and dependable. By lasting longer and minimizing downtime, we help our customers become as successful as possible.

### HELP WHEN YOU NEED IT

With over 50 years of experience and more than 550 locations, we offer the best dealer network in the country for compact equipment. Our dealers offer a quality sales force, dependable parts departments and qualified service technicians, all leading to a quality customer experience.

### A CONSTANT INNOVATOR

In the late 1950s, a turkey farmer needed help – so in 1958, we introduced what was to become the world's first skid-steer loader. We created an industry by listening to the needs of the customer. This focus is the same today. In 2000, a superintendent needed help – so we built the world's first Toolcat utility work machine. We continue to be a global leader in innovation by listening to our customers.

## LEADER BY DESIGN

Listening to the customer and a pioneering spirit are why Bobcat continues to lead the evolution of compact equipment ...

- 1960** Invented the FIRST true skid-steer loader.
- 1970** Invented the FIRST attachment mounting system for skid-steer loaders.
- 1977** Built the FIRST skid-steer loader with no chain adjustments required. Still a Bobcat exclusive.
- 1981** Introduced the FIRST secondary restraint seat bar.
- 1983** Developed the FIRST skid-steer loader with a transversely mounted engine. Still a Bobcat exclusive.
- 1990** Introduced the FIRST compact excavator manufactured in the U.S.
- 1999** Introduced the FIRST compact track loader with a solid-mounted undercarriage manufactured in the U.S.
- 2001** Invented the FIRST loader with all-wheel steer and skid-steer capabilities. Still a Bobcat exclusive.
- 2003** Revolutionized the way the world works with the invention of the Toolcat™ utility work machine line, the world's FIRST utility work machines – a cross between a pickup, attachment carrier and utility vehicle. Still a Bobcat exclusive.
- 2006** Introduced the FIRST utility vehicle with RapidLink™ attachment mounting system.
- 2008** Introduced Roller Suspension™, the FIRST all-steel suspension system.
- 2009** Launched M-Series compact excavators and loaders.
- 2011** The M-Series loader models S850 and T870 became the largest and most powerful in the Bobcat product lineup.
- 2012** Bobcat introduced two new sizes of extendable-arm excavator options that are both attachment and clamp-ready.
- 2013** The M-Series 500 frame-size loaders replaced the popular S185 and T190 (among many others). This loader size is the most popular in the world and has been for two decades.
- 2014** Bobcat launched the 400 frame-size loaders, completing the M-Series line; manufactured its one-millionth loader; introduced its own Tier 4, non-DPF engines; and opened the Bobcat Acceleration Center, a dedicated innovation, testing and technology facility.
- 2016** Launched the M2-Series loaders.
- 2017** Launched the R-Series excavators.
- 2019** Launched the compact tractors.
- 2019** Launched the large excavators.
- 2020** Launch of the R-Series loaders.
- 2020** Launch of the R2-Series excavators.
- 2020** Launch of the small articulated loaders.
- Today** There are more Bobcat skid-steer loaders at work around the world than all other brands combined.
- Today** Bobcat manufactures more attachments than anyone in the world.
- Today** Bobcat is the only company that offers operator training kits for compact equipment.
- Today** Bobcat offers a full range of extendable-arm options, three sizes fitting five different excavator models.
- Today** Compact track loaders are rapidly becoming the product of choice in many market segments.

## BOBCAT TIMELINE

# YOU ARE ONE TOUGH ANIMAL.

Everything we put into Bobcat equipment is designed to make more of whatever you bring to the job. Whether it's strength, versatility, speed or agility, it's built around you.

Certain specification(s) are based on engineering calculations and are not actual measurements. Specification(s) are provided for comparison purposes only and are subject to change without notice. Specification(s) for your individual Bobcat equipment will vary based on normal variations in design, manufacturing, operating conditions, and other factors.

**Bobcat is a Doosan company.** Doosan is a global leader in construction equipment, power and water solutions, engines, and engineering, proudly serving customers and communities for more than a century.
